

New Life Ministries

September 6, 2005

To Whom It May Concern:

Jamie Clark worked at New Life Ministries for more than five years. Originally Jamie was hired to work in our warehouse, but after we discovered his aptitude and skill with computers he became our computer programmer to manage our web properties. Jamie was dependable and competent in both his positions, and, if you hire him, I believe you will find the same to be true for you.

It was unfortunate that our financial cutbacks meant that we had to cut staff. If that was not the case, I'm sure Jamie would still be working for us.

Sincerely,

Stephen Arterburn
Founder, President
